Congratulations, Daniel Rodriguez!

You have successfully passed the exam, and are now a Splunk Core Certified User!

Look for an email notification from Credly within 5-7 days when it's time to claim your badge and set up your Credly profile. If you already have an account with Credly (or had one with Acclaim), you do not need to create a new one.

We encourage you to redeem your badge as soon as the email comes from Credly, and begin promoting your success to friends, family, educational institutions, and employers! Remember, your account must be marked as public in order to be third-party verifiable.
